WORK EXPERIENCE

Infosys Limited

Senior Systems Engineer

Pune, India

Apr 2022 to present

Key Achievements:

- **Efficient Ticket Management:** Successfully handled and resolved a high volume of support requests for multiple Enablon clients, addressing functional and configuration issues.
- **Customization and Configuration:** Tailored Enablon applications to meet specific client requirements using advanced configuration techniques and Nabsic.
- **Deep Domain Expertise:** Demonstrated proficiency in key Enablon modules including Action Plan, Metrics, Risk Management, Health and Safety, Biological Risk Assessment, and Audit Management.
- **Data Migration and Configuration:** Executed seamless data migration to Enablon using import processes and effectively implemented configuration changes using ENX backup and delta files.
- **Problem-Solving and Solution Delivery:** Proactively investigated and resolved complex configuration issues, collaborating with clients and module owners to gather requirements and deliver effective solutions.
- **Knowledge Sharing:** Contributed to team development by conducting training sessions on Enablon projects, fostering a culture of continuous learning.
